Jamrani Dam Multipurpose Project, Nainital, Uttarakhand

Pointwise compliance of Wildlife Clearance conditions

(Reference – 78th meeting of SC NBWL, Dated 22nd Feb 2024, issued vide Letter No./ F.No. WL-6/33/2024 – WL, Dated 28th Feb 2024)

S.No.	Condition	Pointwise compliance report
1	The forest land shall not be used for any purpose other than specified in the proposal.	Forest land is being used for the specific purpose as mentioned in proposal.
2	The concerned territorial divisional forest officer/director shall monitor the implementation of the project regularly & report for the violation, if any.	The Office of DFO, Nainital has to monitor the project activities on a regular basis.
3	It shall be ensured that no labourer camp will be setup inside the forest area.	No labour camp is set up inside the forest area.
4	District Forest Officer shall ensure that all the activities in the corridor Management Plan shall be completed as per requirement.	The Office of DFO, Nainital is carrying out the activities under the Corridor Management Plan as per the requirements.
5	User Agency shall obtain the Environmental Clearance as per the provisions of the Environmental (Protection) Act, 1986, if required.	Environmental Clearance (EC) has already been obtained, dated 13.12.2019 vide letter No. J-12011/04/2007-IA-I (R).
6	The user agency shall comply all the provisions of the Wild Life (Protection) Act, 1972 & all other acts, rules, regulations, guidelines, Hon'ble court Order(s) and pertaining to this project, if any, for the time being in force, as applicable to the project.	This condition is being complied with.
7	The height of the proposed dam shall be marginally reduced for protection of the northern corridor.	Dam top level is 765.60 m. This will be filled upto Full Reservoir Level i.e. 762.00m (3.60m depth of the dam will be always empty that will ultimately reduce the height of the dam.)
8	The component of power house proposed on the right bank of the Gola River in the project shall be dropped.	The proposal of power house has already been dropped from project.
9	The project shall provide bridled paths on both sides of the dam-waterline at least two contour levels just below and above the proposed HFL of the dam to facilitate movement of wildlife which ideally use such paths for movement. Structure at dam connecting hills should be designed a fashion that tiger and other wildlife move freely without disturbance.	• Wildlife conservation plan (₹19.70 Cr.) & Tiger corridor management plan (₹2.70 Cr) has been prepared. • Out of this amount ₹10.74 Cr & ₹2.70 Cr has already been transferred to the forest department. • Bridle path activities/works shall be carried out under above-mentioned plans. • Geographical survey is in progress for identification of location for bridle path construction by the forest department.

10	A series of small bridges (minimum two) should be constructed at appropriate locations to facilitate the passage of wild animals. These should not be used for any regular communication of human beings except in case of emergency and /or inspection. One bridge should be constructed across Gola River where it meets another stream/river connecting the corridor in the east.	• Appropriate location for the bridges is being identified. • Construction work for the bridges will start soon.
11	No development shall be allowed towards forests in the northern side of the Haldwani city. Corridor areas with human habitations shall be fenced off with sturdy chain-link fencing, both as a means to secure the corridor by minimizing anthropogenic pressures, as also to minimise any human-wildlife conflict. Bio-fencing shall also be taken up along the project boundary as per assessed need to reduce anthropogenic impacts in the area.	• No dam related development activity in following ranges: i. Fatehpur range, Ramnagar division ii. Manora range, Nainital division iii. Chhakata Range, Haldwani division shall take place by the User Agency. • Chain-link fencing & Bio-fencing shall be carried out by Forest Dept. under the Wildlife conservation plan & Tiger corridor management plan.
12	Following activities shall be undertaken by the State Forest Department with funding support from the User Agency:	
a.	A regular wildlife monitoring programme using latest tools such as camera traps, drones etc. to generate baseline data as also periodic changes in occupancy and other attributes in the project area;	• All these activities shall be covered under Wildlife conservation plan (19.70 Cr.) & Tiger corridor management plan (2.70 Cr). Out of which amount 10.74 Cr & 2.70 Cr has already been transferred to the forest department. • These activities/works shall be carried out under these plans.
b.	A habitat enrichment programme for both the arms of the identified Tiger corridor in the Project Area so as to improve corridor connectivity in this area and this shall also be monitored regularly. Exact areas of this plantation, duration of the plantation, tree species to be used in the plantation, maintenance schedule shall be approved by the Forest Department. Regular monitoring of this activity shall be undertaken.	
c.	Strengthen the capacity of the Forest Department to effectively address challenges such as encroachment, illicit tree felling and poaching and use of modern patrolling monitoring tools such as MSTripes shall be encouraged.	
13	The mitigation measures proposed in both the Tiger Conservation Plan and in Wildlife Management Plan shall be undertaken.	• All mitigation measures shall be covered under Wildlife conservation plan (19.70 Cr.) & Tiger corridor management plan (2.70 Cr) shall be carried out by Forest Dept. Out of these amounts 10.74 Cr & 2.70 Cr has already been transferred to the Forest Department.
14	A long-term study should be commissioned to regularly monitor for the wildlife in the corridor both during the construction and 5 years after commissioning of the project. These 10 year	The user agency is coordinating with reputed wildlife institutions for conducting the long-term study for regularly monitoring wildlife movement in the corridor with the help of Forest Department.

	long studies must be carried out by a reputed institutions with domain knowledge and expertise with fund support from the User Agency.	
15	A committee comprising of members from NTCA, WII, Forest Research Institute, State Forest Department shall be constituted by the State Forest Department to oversee the implementation of mitigation measures on a half yearly basis and submit their report to NTCA for strict compliance by the User Agency. The User Agency shall bear the expenses for the meetings of the Committee.	The user agency has been coordinating with State Forest Dept. to form the same committee. (Reference enclosed)
16	An annual compliance certificate on the stipulated conditions shall be submitted by the User Agency to the State Chief Wild Life Warden and an annual compliance certificate shall be submitted by the State Chief Wild Life Warden to Government of India.	The user agency shall regularly submit the annual compliance in coordination with the State Forest Dept.
