NOTICE - INVITATION FOR QUOTATIONS

Ref - 15 /APM/Quotation/2026-27 Date- 2 / 11 /2026

Subject:- Invitation of Quotations for carrying out Geotechnical testing work of Borehole for Jamrani Dam Multipurpose Project.

Uttarakhand Project Development and Construction Corporation (UPDCC) is constructing a **150.60 m high RCC gravity dam** across the Gola River, approximately **10 km upstream of Kathgodam** in Nainital District, Uttarakhand.

As part of the geotechnical investigations, **NX-size borehole drilling** has been carried out by the Dam Contractor. Rock cores have been recovered, properly logged, and preserved at the project site in core boxes. Based on the geological investigations, the following five rock types have been generally identified along the borehole(Rock type may vary):

1. Sandstone
2. Siltstone
3. Claystone
4. Porous Sandstone
5. Conglomeratic Sandstone

Representative core samples of each rock type shall be selected for laboratory testing. One complete set of tests shall be conducted for each rock type found in logging of Borehole. Sampling and tests shall be performed as per relevant IS Codal provisions.

The scope of laboratory testing shall include the following:

- Uniaxial Compressive Strength (UCS) both dry and Wet Conditions
- Young's Modulus (Modulus of Elasticity) both dry and Wet Conditions
- Poisson's Ratio in both dry and Wet Conditions
- Direct Shear/Triaxial Compression Test (Consolidated Undrained – CU and Unconsolidated Undrained – UU) in both dry and Wet Conditions
- Slake Durability
- Specific Gravity
- Water Absorption
- Bulk Density
- Grain Density
- Porosity
- Dilatometer test

The quotations must be submitted on or before 14th November 2026, by 3:00 PM via submission in PIU Jamrani Office Damuadhunga Haldwani or in PIU email- piujamrani@gmail.com/ pm04@jamranidam.com. The quoted rates must be valid for 90 days from the date of submission. Bidder may contact undersigned for any assistance or clarification of work.
